Feathers (Birth to 18 months)

Wed 9-10:00 AM

Delighting in the sight, sound, and movement of "winged creatures," this curriculum explores a wide range of songs, movement activities, object play, and vocal play relating to our feathered friends. The Australian Kookaburra, the African Ostrich, and many more birds from across the world are featured in the songs, dances and poems. Both Jazz and Classical selections, a Yiddish Folk Song, a Muskogean melody, and Mother Goose rhymes set to music are just a few of the colorful and exciting pieces introduced to offer a wide range of musical styles and genres for you and your baby to explore. Materials include a home CD of beautifully arranged songs from class, *Feathers Baby Literature Book*—a colorful picture board book with class themes, a set of Art Banners, and an instrument for music-making at home.
